

Laboratori Verdesca

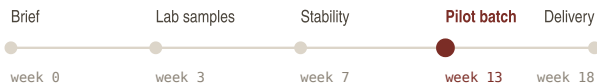

Skincare contract manufacturing for brands that sell across Europe

WHO WE ARE

A second-generation contract manufacturer in the Crema cosmetics district. We formulate, fill and pack skincare for brands that own the label and want someone else to own the process — from a 3,000-unit launch run to a 400,000-unit repeat order, on the same lines.

We do not sell under our own name and we do not compete with our clients. Every formula developed for a brand stays with that brand.

WHAT A RUN LOOKS LIKE

Twelve weeks of the eighteen are stability and safety assessment. They are not compressible.

Typical timeline for a new formula. A reformulation of an existing product, or a fill-and-pack of a formula you already own, runs at eight and five weeks respectively.

HOW WE ARE DIFFERENT TO WORK WITH

- One technical contact from brief to delivery, named in the contract, not a ticket queue.
- Formula ownership is written into the agreement before the first sample is made.
- Raw material substitutions are proposed in writing and never made silently.

REGULATORY SUPPORT

SERVICE	INCLUDED
Product Information File	Yes
Safety assessment, EU	Yes
CPNP notification	Yes
Responsible Person, EU	On request

Claims on the finished product are the brand's responsibility and must be supported by evidence held in the Product Information File, in line with Regulation (EC) 1223/2009 and the common criteria of Regulation (EU) 655/2013. We supply the evidence we generate; we do not write the claim.

WHAT A BRAND ASKS NEXT

- An NDA signed before the brief, as a matter of course.
- Audit of the site welcome, with two weeks' notice.
- Three lab samples per brief, at no charge, before any commitment.

THE DIFFERENCE, ON THE SAME SENTENCE

LITERAL TRANSLATION

"Thanks to our thirty years of experience, we are able to satisfy every request of the customer with the maximum flexibility and the highest quality standards."

WRITTEN FOR A BRAND

"Batches from 300 to 4,000 kg on the same lines, minimum 3,000 units. Your formula stays yours, in writing, before the first sample."
